### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants' process for halogenating compounds is unobvious over the prior art of record because the prior art of record does not teach or suggest obtaining a mixture of two isomers, upon a halogenation reaction, which has a higher ratio of the first isomer to the second

isomer when compared to the ratio of the first isomer to the second isomer before the halogenation reaction. All claims (1-12) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
